

Spectacular residential development view lot in the hillside of Amapas near La Cima III. The site is large enough that a previous project was designed for a gated horizontal condominium regime of villas with their own private road system. Buyers are advised to consult with architects and City officials to determine precise feasibility for future development.

"DISCLOSURE: The seller received rights to develop the property through the authorities. Those rights may no longer be in effect. Any interested party will need to determine if those rights are curr
