

This lot was inhabited a few years ago. It has a water well, a path to the upper part with a plain and platform where a house once stood. From there, it has a spectacular view of the sea and the mountains. It comprises almost 15 hectares of abundant vegetation, very large trees, and animals that coexist in the environment due to the seasonal stream. It is ideal for a sustainable ranch, environmental preservation, and a productive project.

PROPERTY FEATURES

Type: Land

Primary View: Jungle

Secondary View: Ocean
